# Demountable Container with Bunded Floor ...

Demountable Containers with Bunded Floors are designed to assist in the protection of the environment by eliminating accidental spillage. They may be used for the storage of oil based products, paints, inks etc. They can be assembled in a warehouse or on site in a very short time. An affordable bunded storage unit for the Construction Industry, Local Authorities, the Horticultural Sector, the Plant Hire Industry, the Private Sector, etc..

## DESCRIPTION

- Containers are manufactured with 0,75mm zinc coated steel sheeting
- The bunded floor is manufactured from 3mm steel sheet and has a hot-dip galvanised finish. It is covered with a removable galvanised grill
- The 3 metre unit has a capacity of 275 litres in the bund floor and the 2 metre unit has a capacity of 202 litres.
- Any materials with a flash point lower than 100° C can be stored in this container
- The container can store up to 7m<sup>3</sup> (7000 litres) of oil based products and flammable materials
- Containers are available with double doors fitted on the end of units or single/double entry door in side wall of unit. Door handles and locks are standard on all units
- Entry dimensions are 1930x1930mm on double door unit when fully opened
- Containers can be re-flat packed for reduced transport costs
- Containers come with fork boxes
